One-Page Overview for Decision Makers

What is LegalNexus?

LegalNexus is an **AI-powered practice management platform** that helps law firms:

- ■ **Stop losing revenue** from unbilled time
- ■ **Automate operations** (reporting, billing, alerts)
- ■ **Gain complete visibility** into firm performance
- ■ **Make data-driven decisions** with AI insights

Think of it as: Your firm's digital command center with a built-in business analyst (Vicktoria AI) working 24/7.

Core Functionalities

1. ■ Billing Inertia Detection (Revenue Protection)

What it does: Automatically finds unbilled time sitting in your system

- Scans all time entries daily
- Calculates "inertia score" (0-100) for each attorney

- Sends automatic email alerts every morning at 9 AM
- Shows exactly which cases need attention

Real Result: Recovered R1,100,531.67 in unbilled time for one firm

2. ■ Vicktoria AI Assistant

What it is: Artificial intelligence assistant available on every page

- Ask questions in plain English
- Get instant answers about your firm
- Predicts deal close probability
- Provides proactive recommendations
- Available 24/7, knows your firm's data

Example: "What's my revenue forecast for Q2?" → Instant, accurate answer

3. ■ Financial Intelligence

Bank Transaction Categorization:

- Upload bank CSV files
- AI automatically categorizes every transaction
- Shows confidence scores
- Learn spending patterns

Cash Flow Projections:

- 12-month forward projections
- Seasonal adjustments (knows December is slower)
- Early warning for cash shortfalls
- Visual charts

Result: Know your bank balance 12 months from now

4. ■ Executive Reporting Dashboard
